# REVOLUTIONARY TECHNOLOGIC SOLUTIONS IN POLAND

The FiltraTEC trade fair took place on **May 13–15, 2025**, bringing together professionals, entrepreneurs, and experts involved in the filtration, treatment, and separation industries. The event was aimed at manufacturers and distributors of filters, filter components, air and liquid purification systems, technology companies, system integrators, industry representatives, and research institutes. The fair presented modern solutions in the field of air, technical gas, and liquid filtration, water treatment, process filtration, membrane technologies, and filtration process monitoring and control. Exhibitors presented both innovative products and comprehensive systems that respond to current industry challenges, including growing demands for efficiency, safety, environmental protection, and optimization of technological processes.

## INTERNATIONAL REACH OF THE EVENT

### FiltraTec Expo 2025

The **FiltraTec Expo 2025** trade fair attracted **3 789** participants from over **8** countries. The vast majority were visitors from Poland (**92%**). There were also representatives of foreign markets (**8%**), most often from Lithuania, Slovakia, the Czech Republic, Latvia, and Germany. There were also guests from Great Britain, Switzerland, and Turkey.

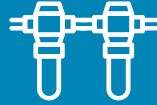

# THE MOST IMPORTANT PROFESSIONAL FUNCTIONS PRESENT ON FILTRATEC EXPO 2025

21%

## Distribution and B2B trade in filtration systems

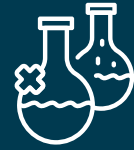

Distributors, importers, and wholesalers of filters, filter components, and technological installations, developing their product range and cooperation with manufacturers.

16%

## System integrators and installation companies

Companies specializing in the design, installation, and servicing of air, liquid, and gas filtration systems in industrial and infrastructure facilities.

8%

## Research units, laboratories, and R&D

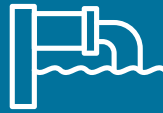

Research institutes, laboratories, technical universities, and technology development departments interested in new filter materials, testing, and process innovations.

29%

## Industrial production and technological plants

Manufacturing companies in industries such as chemicals, food, pharmaceuticals, energy, and processing, seeking effective filtration solutions and process optimization.

14%

## Water, sewage, and environmental companies

Entities involved in water treatment, wastewater treatment, and environmental protection, implementing filtration technologies in public and industrial infrastructure.

12%

## Service, maintenance, and technical services

Service companies, maintenance departments, and entities responsible for the operation, modernization, and control of filtration systems in production plants.

## THE MAIN REASONS WHY OUR VISITORS PARTICIPATE IN THE FAIR

- Access to the latest filtration technologies and market premieres. Visitors want to be the first to learn about innovative air, liquid, and gas filtration systems, new filter materials, and advanced technological solutions for industry. 76%
- Establishing business and commercial contacts. Building relationships with manufacturers, suppliers, distributors, and integrators of filtration and technological systems. 68%
- Expanding knowledge about market trends and technological developments. New directions in industrial filtration, membrane technologies, process automation, monitoring, and environmentally friendly solutions. 63%
- Special offers and conditions available only during the fair. Commercial negotiations, presentations of new solutions, and the opportunity for direct technical and commercial discussions with manufacturers. 55%
- Testing devices and solutions "live." Direct contact with installations, components, and filtration systems, and the opportunity to evaluate their effectiveness, quality, and practical application. 49%

# THIS IS WHAT THOSE WHO HAVE ALREADY BEEN WITH US SAY

*"As a company specializing in modern water treatment solutions, we are committed to supporting initiatives aimed at developing technology and exchanging knowledge in this sector. Trade fairs are not only an excellent platform for us to present our products and solutions, but also an opportunity to establish valuable business relationships. By participating in such events, we can also keep up to date with the latest trends in the industry. We also believe that cooperation with Ptak Warsaw Expo enhances the prestige of our company and strengthens its position on the market. We are therefore delighted to be part of this venture and to have a real impact on its development."*

*"Working with Ptak Warsaw Expo is pure pleasure! Professional organization, excellent technical facilities, and a truly helpful team ensured that everything ran smoothly. This allowed us to focus on talking to customers and establishing valuable contacts. We definitely recommend this venue for trade fairs and industry events!"*

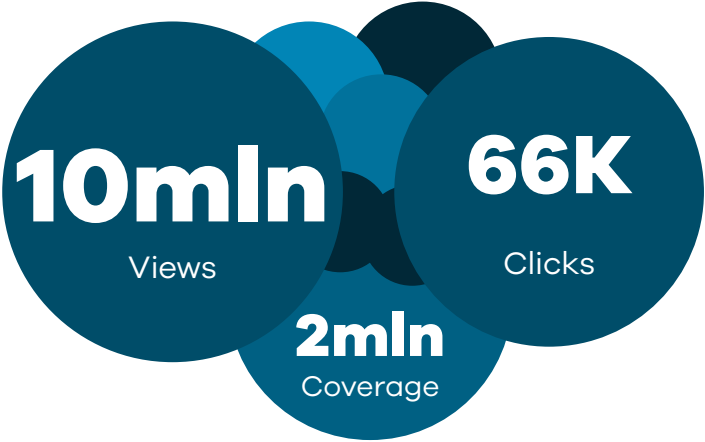

# MARKETING AND PR

We promote each event in a comprehensive and multi-channel manner – we carry out modern marketing campaigns in the digital space, including advertising on Google, Facebook, and Instagram, and we actively maintain a YouTube profile. We send mailings, newsletters, and text messages, prepare elegant paper invitations, and contact potential visitors directly by phone. We research which countries have the greatest demand for this type of event and direct our promotional activities there in order to reach the right audience with our advertising.

## GENERAL INFORMATION

# PARTNERS AND PATRONS

However, promoting our events is not just about advertising campaigns and sending invitations – it also involves strategic cooperation with key players in the industry. We cooperate with institutions representing the sector, industry media, prestigious magazines, and creators of specialist blogs in Poland and abroad. Thanks to this, we effectively attract professional visitors and provide our exhibitors with maximum reach and measurable business results.

**Sieć Badawcza Łukasiewicz** – The Institute of Operation Technology in Radom supports the country's innovation policy and sustainable development. It specializes in advanced technologies, materials engineering, machine construction and operation, technical safety, environmental protection, and the development of continuing education and staff training programs for a modern economy.

**The purpose of the Association** is to develop technology and technical thinking, disseminate knowledge and technical progress in areas covered by the Association's activities, integrate the community, improve and verify the professional qualifications of Association members and other persons in the Association's specialties, and ensure that its members adhere to professional ethics.

**The mission of the Association** is to promote and disseminate engineering knowledge and economic patriotism, with attention to the common interests of engineers, technicians, and the chemical industry.

# MEDIA SUPPORTING THE FAIR FILTRATEC EXPO 2025

As the EURO MEDIA/FACHOWE MEDIA Publishing Group, we cooperate with Ptak Warsaw Expo, supporting the development of key industry events. Our publications: Chłodnictwo&Klimatyzacja, Polski Instalator, Świat Szkła, Ochrona i Bezpieczeństwo, as media patrons and exhibitors, support the success of the trade fairs and provide expert knowledge to visitors by organizing professional conferences and congresses as part of these events. Our cooperation with Ptak Warsaw Expo and our presence at the trade fairs enable us to establish direct contact with key companies from various industries, strengthening the position of our titles, but also direct contact with our audience. It is also an excellent opportunity for promotion, acquiring new business partners and readers.

"As a media patron of events organized by Ptak Warsaw Expo, we are pleased to support the development of valuable industry initiatives. We appreciate both the broad scope of the trade fair and the consistency with which it is developed. It is a space for meetings and substantive discussions – an increasingly important event in the industry calendar every year."

"As a 'Modern Industry', we appreciate the professionalism of the organizers and the rich program accompanying the fair – numerous conferences, discussion panels, and workshops that provide knowledge and inspiration for further business development. We encourage all representatives of the industrial sector to participate in future editions of the fair in Nadarzyn. We are convinced that participation in events organized by Ptak Warsaw Expo will contribute to the development of professional skills, the establishment of fruitful business relationships, and the strengthening of positions in the demanding industrial market."
